CONFIDENT LEARNER

Commonwealth Secondary School

CWSS Programmes

Nurturing Commonwealthians as Champions of Today and Leaders of Tomorrow

Maker Education and Design Thinking

CHAMPIONS OF CREATIVITY

Playing Seriously

At Commonwealth Secondary, this is not “mere” play but the foundation at the heart of nurturing creativity. In our well-resourced Makerspace, students are encouraged to use the power of their imagination to create. Students make toys, VR headsets, electric pianos and keychains for the sole purpose of realising their wildest dreams!

A library where imagination has no boundaries

CHAMPIONS OF IMAGINATION

Imaginarium: Imagine it. Be it.

Snuggle up on a couch in the Living Room with a book, escape into one of The Nooks to mull over your school work or enter the 100 Acre Wood with your friends for another quiet project discussion. The library aims to be a community space for students to learn and discover. With a range of activities from Wordsmith, Pageturners Book Club, and Book Pitch, you can be who you want to be for that day, or just for that hour or two.

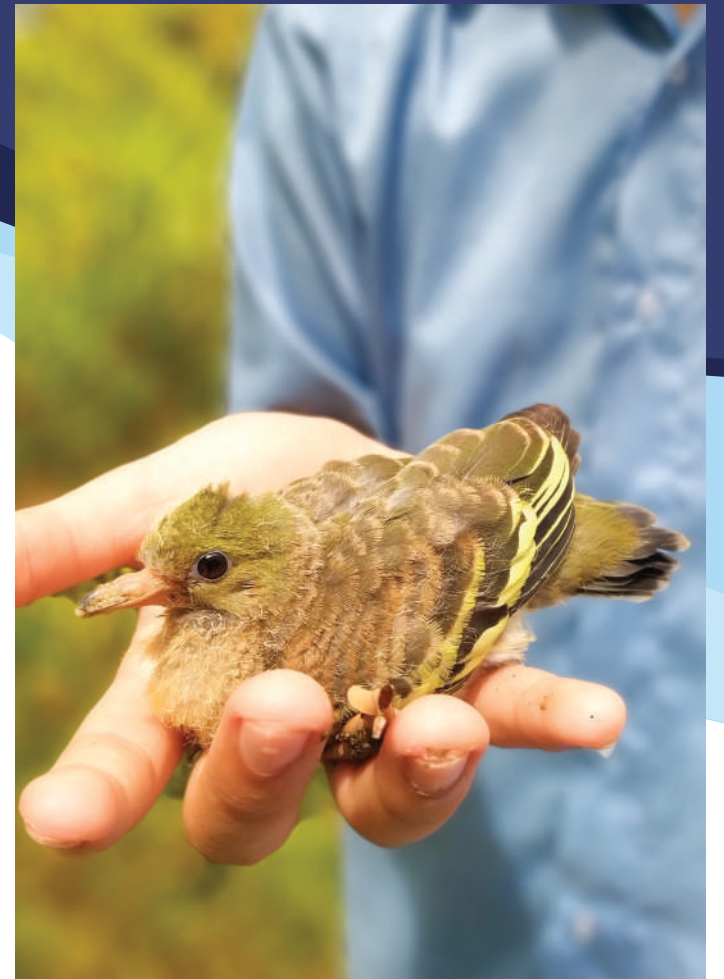

Empowered to be Environmental Advocates

CHAMPIONS OF SUSTAINABILITY

When Nature Calls, CWSS Responds

To foster the love for nature, Commonwealth Secondary has created many eco-habitats for students to experience authentic out of classroom learning experiences. Our teachers lead their students out of the classroom for a first-hand opportunity to study our school’s Rainforest, Wetland and Stream up-close and engage in scientific inquiry and research on environmental issues and be advocates for environmental conservation. Join us to make a difference!

School-Based Electives

CHAMPIONS OF THE FUTURE

The 8th Discipline: Passion & Future-Readiness

At Commonwealth Secondary, we value the importance of giving students the time and space for exploration and to build 21st century competencies by offering the option to study an innovation-focused elective as their 8th subject, namely Design Elective, or Science, Technology, Engineering and Mathematics (S.T.E.M.) Elective.

Exploring Passion, Showcasing Talent

CHAMPIONS OF PASSION

Our Stage for Students to Shine

At Commonwealth, students are given the space to explore their interest and passion in the arts. Students learn to develop their own ideas, test boundaries, get input from others, and generate new ideas based on their experiences, giving them the confidence to step up to the world stage and share their creativity!
